ABSTRACT

In this booklet, five tables developed by the United States Department of Bilingual Education illustrate how Title VII funds were spent in 1977-1978 in the United States and its territories. Table I lists all funded projects, pupil participation and grade level, languages served, and the amount of each grant. Table II gives all information pertinent to programs funded under Subpart E (fellowships for preparation of teachers in training). Table III lists the name, location, director, and grant information of three types of materials development centers funded under Subpart C. Table IV details the technical assistance grants awarded to State educational agencies under Subpart F. Table V contains information on programs funded under Subpart D (training programs for other than teacher trainers). (Author/WI)

PREFACE

The following tables have been developed by the U.S. Office of Education, Office of Bilingual Education, to enable the reader to determine how Title VII funds are spent.

TABLE I: This is a comprehensive listing by state of funded projects, pupil participation, grade level, languages served, and the grant-award amount of the basic programs participating under Subpart B of the Bilingual Education Act.

After each state heading is a designated region which refers to one of the ten areas of the United States under the aegis of a particular Department of Health, Education, and Welfare Regional Office. A table of regional commissioners of education, and a listing of contact persons are alphabetically arranged by state and program.

TABLE II: This table gives all the information pertinent to programs funded under Subpart E-Fellowships for Preparation of Teacher Trainers. Included is the grant number which is used to identify the project, the number of years for which the project has been negotiated, the degree awarded upon completion of the program, the number of fellows participating in a given project, and the overall dollar amount of the project.

TABLE III: This chart provides information regarding the three types of center funded under Subpart C. The centers are listed categorically. The name, location, director, languages, grant-award number, and amount of award are provided for each center. The number, and amount of award are provided for each center. The numeral which appears under the heading "Service Area" indicates which service area the center is responsible for. Each of the three types of centers have different service-area delineations. These regions are not generally the same as the regions for HEW.

TABLE IV: A listing of the Title VII funds which were awarded to the state education agencies under Subpart F. The name of the director and the amount of the grant award are also provided.

TABLE V: This table contain information on programs funded under Subpart D-Training Programs. This funding differs from fellowships in that the fellowships are restricted to the training of teacher trainers. Training monies are used in a more diversified manner such as the training of teachers, aides, and other related personnel (administrators, counselors, etc.). The chart gives information on the grant number, the previous years in force, the number of years for which the project has been negotiated, languages, the degree or credential conferred, and the amount of the actual grant award. The number in parentheses appearing after the state heading indicates the number of training projects funded in that state.

On most charts, the grant number will be prefaced by the G00760, or G007, number which appears in the column heading.
